Subject: Re: OAV

- 1- just tell them to simply hold on we are looking at another option.
- 2- not worried about nimby's now. I'm not going to try to find them.
- 3- No but a doubtful option.
- 4-no
- 5- no
- 6- I need to write something.
- 7- no
- 8- no

Kent Guinn
Mayor
City of Ocala

Several questions as we head toward tomorrow meeting with SA

1. What should we tell those folks to do who have been working for free on the City site--civil engineer, architect, builder, lawyer, etc.? Should we tell them to stop work?
2. What to do about the fact that there will be NIMBY's at every site? I am leaving here in a few minutes to look at the SA site, but know from Property Appraiser's records that there are a number of businesses, etc. near the site. Will the City Council prefer those NIMBY's to the ones we have now, or vice versa? Or, will any NIMBY's scare off Council?
3. Have we thought about moving SA to our current site?
4. Why no op-ed piece yesterday? Did Brad veto it? Did he ignore you like he has been ignoring me? Do I go back again to McNiff to get him to get Brad involved?
5. Have we thought about getting a letter from the former Clearwater mayor addressing the "magnet"/"attractor" comment we have heard re the City site, and will certainly hear again on the SA site--especially if we move SA's current services out there?
6. Do we still want an op-ed piece that Karla and Steve H. and father Pat sign that addresses the comments we have received from those who have called and emailed? (I think so.)
7. Do we find it odd that Suzy has referred several people to us with questions and comments, yet none of the other Council people have?
8. Or, that staff has only forwarded us one email--Weitzel's?

Just Wondering

Steve
